RE: F23-07-062 CIS & Implementation Services

The City of Greeley would like to thank all of you for participating in our RFP process to provide CIS & Implementation Services. The Initial evaluation of the submitted proposals has been completed. This initial evaluation included a full review of proposals to ensure that vendors met the minimum requirements as set forth in the RFP. Of eleven proposals received, only one failed to meet the City's minimum needs. The following vendors have been chosen to move on to the next round of evaluations:

Advanced Utility
Cayenta
ESC Partners
North Star
Origin Smart City
Origin Utility
S & S
SpryPoint
TMG Consulting
Vertex One

The following vendor did not meet minimum requirements:

Cogsdale

The City recognizes and appreciates the time and effort all firms put into preparing and submitting their proposals to us. Please be assured your response was carefully reviewed and evaluated in accordance with the RFP requirements. The City will be reaching out to the chosen vendors with the next step in the process.

In closing, I encourage all vendors to participate in future solicitations with the City of Greeley.
Sincerely,

Levi Dyer Purchasing Manager
